

Situation & Update Report#4 (10-04-2020)

MWS COVID-19 Response: Supporting Daily Wage Earners

a) COVID-19 situation in Azamgarh:

- Four COVID-19 positive cases in Azamgarh District on 8th April 2020.
- 8000 people are on quarantine in different villages/locations in Azamgarh.
- Government has started a WhatsApp group of all Village Pradhan's in Azamgarh district.
- Based on estimation and sampling more than 25000 daily wage labourers are affected in Azamgarh because of COVID-19 lock down. They are not able to earn and survival is at risk.
- There is need of about 350000 masks initial approximation based on: a) *population*, b) *people from vulnerable section*, c) *our own experience of working in the district* d) *media reports and mask as one criterion to minimise the risk of spread of COVID-19.*
- At community level there is hardly any understanding of social distancing.
- Government efforts a) involved *asha* workers in pre-screening of all villagers b) turned all government schools in quarantine canters c) daily monitoring of lock down by senior officials c) essential services are in operation

b) MWS COVID-19 Response:

Mijwan Welfare Society (MWS) has started responding to COVID-19 from 2nd April 2020 by supporting the daily wage earners through a) Dry Food grain Kit -Includes rice & dal b) Hygiene kit-includes two masks and two soap per person per week. Apart from this MWS has also distributed masks to the general community. MWS aims to distribute 10000 masks by 14th April 2020.

Area of COVID-19 response: Azamgarh, Uttar Pradesh

Update of MWS COVID-19 response and distribution (as on 08/04/2020):

Support Offered and community reach	1st-2nd Day	3rd-4th Day	5th-6th Day	7th-8th Day	Total
People reached	240	320	200	700	1460
Food grains distributed (in Kgs)-to needy ones only	310	800	720	125	1955
Masks distributed	240	2580	700	1000	4520
Soaps distributed	240	1280	800	100	2420

Gender and ageing dynamics of MWS distribution to combat COVID-19

Gender and ageing dynamics of MWS distribution		
	Food & Hygiene support (including masks)	Masks only
Aged (60+)-Female	400	50
Aged (60+)-Male	280	40
Aged (20-60)-Female	220	60
Aged (20-60)-Male	210	50
Aged below 20 years	50	100
Total	1160	300

c) Innovation by MWS team:

- MWS has started a distribution system of 'pick & go' where we keep the material (food and hygiene kits) at one place and people come one by one after wearing face mask and pick-up the MWS Food & Hygiene kit and go. This helps to maintain social distancing and neither community nor any MWS staff get in contact with anyone.
- Focus on identifying the most vulnerable through local staff and avoid duplication (where already someone is distributing food materials) through daily getting updates from local media and newspaper.
- Let's understand Mijwan Welfare Society system of operation in COMBATING COVID-19 and supporting daily wage earners as:

First Step (Communication)	Through means of technology (phone), media, government sources and local expertise we identify the area in need (where food and hygiene kit support is required for daily wagers).
Second Step (Procurement-supply chain)	MWS procurement process includes local ration shop as well as from the local farmers (both female & male) -food grains (raw) mainly from those farmers who have extra food and are not able to sell their produce in this lock down period. This helps rural economy to keep going on (without stepping out of home) and maintains supply chain.
Third Step (Packaging)	MWS packaging of grains and hygiene support kit includes all protection i.e. wearing gloves, wearing mask and maintain social distancing.
Fourth Step (distribution)	We use small vehicle so that we could reach to unreached and park the vehicle in the needy area and put the mask on a chair, people come one by one maintain social distancing, wear mask and then pick food and hygiene kit and go. We call it 'Pick & Go' method.

- MWS team have distributed 50 masks to Phulpur kotwali (Police Station) and 100 masks to different media people.
- Two villages named Mijwan and Itkohiya of Phulpur tehsil in Azamgarh are 100% mask equipped. MWS team has distributed masks to everyone in these two villages.

d) Key challenges for MWS team in distribution:

- Psychological fear of Corona virus keeps on roaming in mind.
- Making community to understand 'social distancing'. It's very difficult to convince community on 'social distancing'. To overcome this MWS team is guiding and community on social distancing and before distribution ensure that everyone must have mask.
- At present we are the only key NGO working on supporting daily wage earners. There are certain organisation and individuals who are also engaged in food and health kit (mainly mask) distribution, but most of them are not registered and they themselves are not following the basic practice of social distancing. This might lead to give wrong message in community about social distancing.
- Some of us working at MWS are away from our own families, thus manging psychological (especially a sad situation) pressure is another key challenge.
- Its harvesting season, and farmers have to go out and it's difficult to maintain social distancing there. MWS team is also guiding farmers on this.
