Response  
as of 07.05.2020**

**Part-A**

**MWS COVID-19 relief work in Azamgarh & other districts of Uttar Pradesh**

# COVID-19 situation in Azamgarh

0 positive cases of COVID-19

Zero COVID-19 deaths

8 COVID-19 patients recovered. Now zero COVID-19 positive cases in Azamgarh

More than 25000 daily wage earners are affected because of COVID-19 lockdown.

There is need of about 350000 masks

a) Government efforts a) involved *asha* workers in pre-screening of all villagers b) turned all government schools in quarantine canters c) daily monitoring of lockdown by senior officials c) essential services are in operation.

b) UP Government gave strict directive on 17.04.2020 that nobody in the state, whether in urban or rural areas, should suffer on account of lack of food.

# Mask Distribution in Varanasi-Through NDRF

# Mijwan Welfare Society's system of operation in COMBATING COVID-19 and supporting daily wage earners

<p><b>First Step (Communication)</b></p>	<p>Through means of technology (phone), media, government sources and local expertise we identify the most vulnerable areas where food and hygiene kits are urgently needed by the daily wage earners.</p>
<p><b>Second Step (Procurement-supply chain)</b></p>	<p>Procurement process includes local ration shops as well as the local farmers (both female &amp; male) -food grains (raw) are mainly procured from those farmers who have extra and are not being able to sell their produce during the lock down period. This helps the rural economy to keep going (without stepping out of home) and maintains the supply chain.</p>
<p><b>Third Step (Packaging)</b></p>	<p>Packaging of food grains and hygiene support kits are undertaken by ensuring all MWS staff involved are well protected i.e. they wear gloves, masks and maintain social distancing.</p>
<p><b>Fourth Step (distribution)</b></p>	<ul style="list-style-type: none"> <li>•MWS uses a small vehicle for the distribution of kits which enables us to reach the remotest areas and help those in dire need. We use the 'Pick &amp; Go' method. i.e the food and hygiene kits are kept at one place and people after wearing face masks distributed by MWS come one by one, collect the MWS food and hygiene kit and leave.</li> </ul>

Mijwan has possibly become the first social distancing village in India-where social distancing has marked in entire village.

# Key challenges at community

- The daily wage earners are worried about their family members stuck in cities like Delhi, Mumbai etc because of the lockdown.
- They fear for their own survival because of shortage of essential items and poor health care in the villages.
- They are also scared of unemployment even after the lockdown ends.
- It is difficult to maintain social distancing in villages because the houses are extremely small with many residing members.
- Misinformation and spread of rumours

# **Key challenges for MWS team in distribution**

- The fear of Corona virus has started impacting the MWS team psychologically. It is also causing an emotional strain as some team members working on ground in Mijwan are away from their families.
- MWS team is trying to instil among the local communities the importance of social distancing and ensures that everyone wears a mask before distribution.
- Despite the COVID-19 situation the farmers have no choice but to venture into their fields as it is harvesting season. It is difficult to maintain social distancing there. MWS team has also taken up the initiative of guiding farmers on this.
- On one hand the community wants to be safe but on the other hand they are desperate for the lockdown to end as their livelihoods are at stake.
