Gender and age dynamics of food and hygiene kits distribution programme (including masks) by MWS

■ Aged (60+)-Female ■ Aged (60+)-Male ■ Aged (20-60)-Female ■ Aged (20-60)-Male ■ Aged below 20 years

Mijwan Welfare Society's system of operation in COMBATING COVID-19 and supporting daily wage earners

First Step (Communication)

Through means of technology (phone), media, government sources and local expertise we identify the most vulnerable areas where food and hygiene kits are urgently needed by the daily wage earners.

Second Step (Procurement-supply chain)

Procurement process includes local ration shops as well as the local farmers (both female & male) -food grains (raw) are mainly procured from those farmers who have extra and are not being able to sell their produce during the lock down period. This helps the rural economy to keep going (without stepping out of home) and maintains the supply chain.

Third Step (Packaging)

Packaging of food grains and hygiene support kits are undertaken by ensuring all MWS staff involved are well protected i.e. they wear gloves, masks and maintain social distancing.

Fourth Step (distribution)

- MWS uses a small vehicle for the distribution of kits which enables us to reach the remotest areas and help those in dire need. We use the 'Pick & Go' method. i.e the food and hygiene kits are kept at one place and people after wearing face masks distributed by MWS come one by one, collect the MWS food and hygiene kit and leave.
